

Connect to JMLS Wi-Fi: OS X

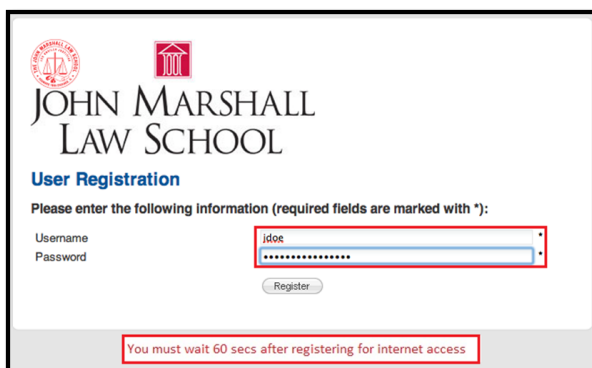

1. Click on the Network Connectivity icon in the taskbar, then select the network **JMLS**. If you're prompted for a security key, enter **PracticeReady** (password is case sensitive).

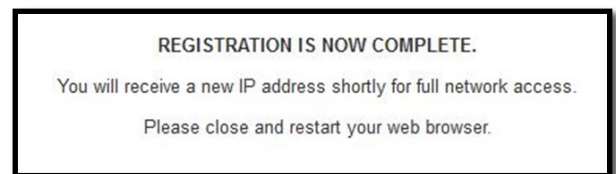

2. Open a browser (e.g., Firefox) and attempt to navigate to any page until you see the User Registration screen. Select **Accept**.

3. Enter your **JMLS username and password**. You must wait a minimum of 60 seconds afterward for the authentication to complete.

4. Completely **exit out of your browser** and open it again **after 60 seconds** have passed. You should now be connected to the internet.

Questions? Contact the **ITS Help Desk** via the Help Desk Portal at helpdesk.jmls.edu, phone at 312/427-2737 x550, email at helpdesk@jmls.edu, or visit Room 733, 7th floor, State Street building (via the main elevators or stairs from the 6th floor outside the library). This guide and others on library & technology topics are online at library.jmls.edu/ltsguides.
