

## Connect to JMLS Wi-Fi: Windows 7

1. Navigate to your wireless network connections in the lower right-hand corner of your screen. Select **JMLS** and connect.
2. A prompt for the password will pop up. Type in **PracticeReady** (password is case sensitive!).

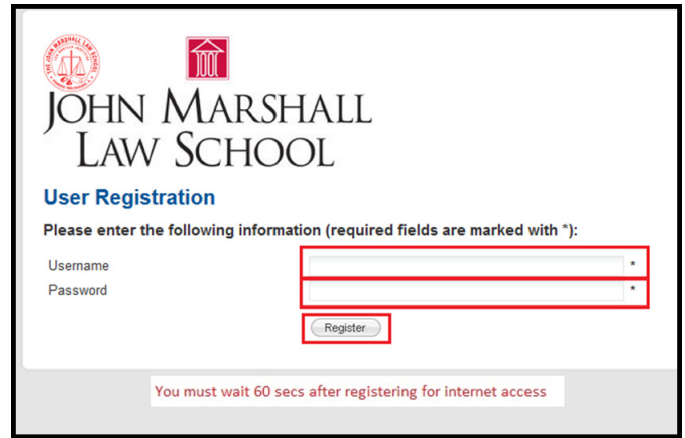

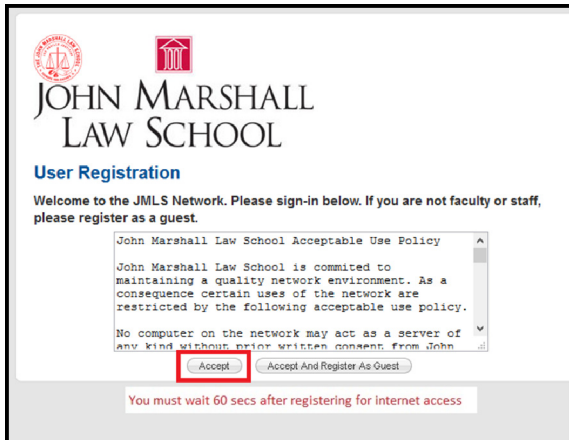

3. Once it's done connecting, the "Set Network Location" dialog box will open. Select **Work network**.

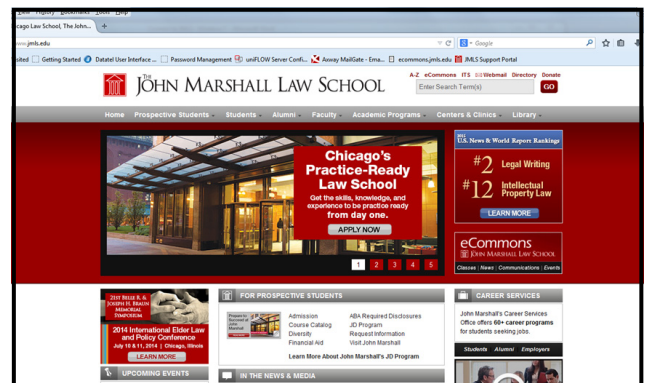

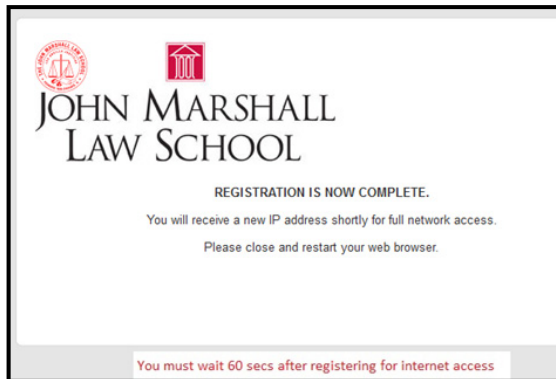

- Close the window and open the **Firefox** web browser (*recommended*), which will automatically load the JMLS portal.

- After reading the Acceptable Use Policy, choose **Accept**, which will then prompt you to enter your login credentials (same as eCommons).

- After you have logged on successfully, you must close your web browser, please **wait 60 seconds** and restart.

- After restarting your web browser, the JMLS home page will automatically load and you will be connected to the internet.

## Questions?

For additional help, please contact the **ITS Help Desk** via the Help Desk Portal at [helpdesk.jmls.edu](http://helpdesk.jmls.edu), by phone at 312.427.2737 x550, or by email at [helpdesk@jmls.edu](mailto:helpdesk@jmls.edu). You can also visit us in Room 733, 7th floor, State Street Building.
